PAUL CARRIES THE GOSPEL INTO EUROPE

LESSON TEXT—Acts 15:36-16:15.
GOLDEN TEXT—Come over into Macedonia and help us.
PRIMARY TOPIC—Paul's Wonderful Dream.
JUNIOR TOPIC—God Calls Paul to Work in Europe.
INTERMEDIATE and SENIOR TOPIC—Pioneering in Europe.
YOUNG PEOPLE and ADULT TOPIC—Paul's Call to Europe.

I. Finding an Assistant for Paul (Acts 15:35-16:5).

1. Contention over John Mark (vv. 36-41).

(1) Paul's proposal (v. 36).

This was to revisit the scenes of their missionary endeavors to find out what progress the believers were making in their Christian experience.

(2) Determination of Barnabas (v. 37).

It was to take with them John Mark, Barnabas' nephew (Col. 4:10).

(3) Paul's opposition (v. 38).

He was suspicious of Mark because of his desertion on a former journey (Acts 13:13).

(4) Their separation (vv. 39-41).

Their contention was so sharp that they separated. God overruled this incident to the wider extension of the work. Barnabas took Mark and sailed to Cyprus; Paul chose Silas, and went through Syria and Cilicia.

2. Finding Timothy (16:1-5).

(1) The place (v. 1).

It was the very place where Paul on his first journey had endured cruel stoning. The conversion of Timothy may be regarded as fruitage of Paul's testimony at that time.

(2) His parentage (v. 1).

His mother was a believing Jewess and his father a Greek.

(3) His character (v. 2).

He had a good reputation in the church at Lystra and Iconium.

(4) His circumcision (v. 3).

Timothy had not been circumcised. Doubtless this omission was because his father was a Gentile. To avoid offense among the Jews, Paul circumcised Timothy.

(5) The ministry of Paul and Timothy through the cities (vv. 4, 5).

They delivered decrees which had been ordained at the Jerusalem council (Acts 15:19-24).

II. Forbidden to Preach the Word in Asia (Acts 16:6-8).

The inclination of Paul was to tarry in Asia Minor preaching the Word, but contrary to their inclination they were hurried along. The Holy Spirit is just as active and faithful in closing doors as in opening them.

III. The Call to Macedonia (vv. 9-12).

The time had now come for the gospel to begin its conquest of another continent. By the crossing of the gospel from Asia to Europe the church, instead of becoming an oriental movement, became mainly occidental.

1. The vision (v. 9).

Being hemmed in on all sides, a vision was given to Paul of a man of Macedonia pleading for help, which made clear the meaning of the closed doors about him.

2. The advance (vv. 10-12).

As soon as the divine way was known they moved forward. Visions, to be effective, must be quickly translated into aggressive action.

IV. The First Convert in Europe (vv. 13-15).

The Jewish element in Philippi was so small that it was unable to afford a synagogue, therefore the devout people were accustomed to worship by the riversides. To a humble gathering of this kind Paul came and preached. Lydia, a business woman from Thyatira, believed. The steps in her conversion are worthy of note, as typical.

1. Attendance at the place of worship (v. 13).

Usually those whom God is calling are found at the place of prayer.

2. Listening to the preaching of the Word of God (vv. 13, 14a).

Faith cometh by hearing and hearing by the Word of God (Rom. 10:17).

3. Her heart was opened by the Lord (v. 14b).

Only the Lord can convert a soul. It is our business to preach the Word of God, and it is God's business to open the heart of the hearer. Regeneration is a supernatural work.

4. She was baptized (v. 15).

Every one whose heart the Lord has opened desires to confess Him in baptism.

5. Her household believed (v. 15).

6. Hospitality practiced (v. 15).

Those who have experienced God's saving grace are disposed to have part in His work by rendering aid to His ministers.

Nowhere Else to Go

I have been driven many times to my knees by the overwhelming conviction that I had nowhere else to go. My own wisdom, and that of all about me seemed insufficient for that day.—Abraham Lincoln.

Not Without Christ

A man may go to heaven without health, without riches, without honor, without learning, without friends, but he can never go there without Christ. —Jno Dyer.

FOREST VIEW

Last Saturday was the most distressing time in regard to heavy rains and high water this community has experienced for over one-half a century. The bridge over Falling was washed entirely away and the water was seven feet above the bridge, every bridge on our mail route has been washed away, but we have a faithful mail carrier and he is delivering the mail with a whole lot of trouble and expense—also the crops are in a bad condition, washed away.

Mrs. Lawrence Laughlin of Lynchburg, spent last Wednesday in the home of T. H. Ford, her mother, Mrs. T. H. Ford, accompanied her home to spend about two weeks with her and other children there.

Mr. and Mrs. M. W. Hunter and family and several others from Gladstone, Misses Virginia Moore, Frances Ford and Blanche Babcock who is visiting Frances, and William Ford. Mr. and Mrs. B. C. Sims and family, Mr. and Mrs. J. A. Martin and Mr. T. J. Nash and four grand-children all gathered at the home of R. W. Martin last Tuesday night, this being the last night Mr. and Mrs. Shield and two sons, of Columbus, Ohio, would spend in Virginia. The music brought from Gladstone was enjoyed by all—and all had a delightful time.

Mr. Henry White of Richmond, has been visiting his sister, Mrs. N. D. Marshall.

Mr. and Mrs. George Cocke, of Charlotte, visited in the home of N. D. Marshall last Thursday.

Master Thomas Odor and Frances Harper, who are spending some time with their grandparents, Mr. and Mrs. T. W. Odor, took a mule back trip to see the former's mother last Sunday. The distance was a little farther than they thought and having no saddle on, we don't think they will try it again soon.

Mrs. N. D. Marshall and brother, Mr. Henry White of Richmond, Mr. and Mrs. DeWitt Marshall and T. H. Ford visited in the home of J. A. Martin last Wednesday night.

Mr. and Mrs. J. A. Martin visited in the home of A. S. Wooldrige last Sunday afternoon.

Mr. and Mrs. Perlie Jones, after finding the bridge washed away, could not reach the place they started, the picnic at the home of Allen Nash, they visited in the homes of T. J. Nash and R. W. Martin Sunday.

We are sorry to hear so many mills are washed away.

EVERGREEN

Rain, Rain, Rain, who said "It Ain't Goin To Rain No More".

The Methodist S. S. picnic was postponed until Friday the 17th, on account of rain.

Mr. Harrup of Capron, Va., was guest of Miss Elizabeth Meadows.

Miss Nora Meadows is visiting in Roanoke this week.

Mr. and Mrs. W. S. Farrar and two children of Church Road, visited friends and relatives here.

Mr. IArvey Jefferson of Hopewell, is visiting in the home of Mrs. T. T. Evans.

Mr. and Mrs. Edd Hamilton of Roanoke, have been visiting home people here.

Mr. and Mrs. J. R. Connor, Mr. Andrew Harvey and Mrs. W. B. Thomas spent the weekend at Lovingston.

Miss Louise Evans is visiting at the home of Rev. E. F. Burnett.

Master James Elliott Cheatham is visiting his grandparents at Dillwyn.

Miss Hattie Clyde Condrey of Richmond, is visiting her aunt, Mrs. O. P. Farrar.

Revival begins at Methodist church here Sunday evening. Preaching by pastor.

The grandfather of Mr. W. J. Smith is very ill at this writing.

Mr. J. C. Alfred of Bristol, Tennessee, is visiting at the home of Mrs. W. J. Smith.

PLAN RADIO BEACONS FOR 5 ARMY FIELDS

Aerial Guides Lessen Bad Weather Dangers.

Washington.—The Army Air Corps within the next few months is to install radio-beacon stations at Mitchell Field, L. I., and at its fields in San Francisco, San Antonio, Uniontown, Pa., Dayton, Ohio, and here. At present it has beacons only at Panama and Hawaii.

This was announced by F. Trubee Davison, assistant secretary of war for air, following his return from an inspection trip of Army Air Corps activities at Dayton and other points in the West. He also told of progress being made with other devices for the safety of flying.

"The six beacons," he said, "will provide several combinations of airways that will be undisturbed by clouds and proof against fog. The beam of the radio beacon can, like a searchlight, be thrown in any direction and can be made in lengths that vary from less than 100 to nearly 2,000 miles.

Flier Is Guided by Letters.

"The radio beacon sends three signals which run parallel to each other, like fingers extended from a hand. When the pilot is on his exact course he hears the letter 'T.' If he swings to the right or left it changes to 'N' or 'A.' In other words, if the weather is such that he cannot see, the pilot flies by ear.

"Any plane equipped with a radio set can hear the signals. The pilot need not even be an expert, because the code, once heard, is easily remembered. On my visit to Dayton, I flew on the radio beacon and the steady 'T' buzz-z-z was easily recognized from the other signals.

"Army Air Corps engineers are doing all they can to lessen the handicaps of pilots who fly in bad weather. Two important experiments in that connection are the new landing altimeter and a system of lender cables. The new altimeter differs from the old-time instrument in that it gives the exact distance between a plane and ground objects.

"The value of this new height recording device becomes apparent when one considers the fix in which pilots have found themselves when flying, or in trying to land in fog, or at night. It must be remembered, that the old-time altimeter works by atmospheric pressure. Its zero is at sea-level, but a pilot who flies 1,000 feet above that level actually may have only fifty-foot clearance between himself and tree tops in high and rolling country.

"The value of the capacity altimeter is that it tells the pilot exactly how far he is above ground objects. Lift one of these new instruments above a desk and it records exactly the height at which it is held suspended. This instrument is still highly experimental, but I believe that it points in the right direction toward defeating fog—the arch enemy of aviation.

Reduce Landing Perils.

"Experiments also are being conducted with the 'leader' cable, a device designed to reduce dangers in bad weather landings. It has been used in Europe and it is now being tested by Army Air Corps engineers. The leader cable is a series of wires that radiate from the center of the airport like spokes from a wheel. Each cable or spoke sends, at various intervals, signals informing the pilot who is about to make a landing how to govern his descent and even tells him when to put his wheels on the ground."

Mr. Davison expressed satisfaction with the results of his inspection trip, which covered several middle and northwestern states, and included visits to a number of regular Army Air Corps stations, as well as fields used by National Guard and Army Air Corps reserve aviators.

"Another feature that impressed me deeply is the progress made toward improving housing conditions for Army Air Corps pilots and enlisted personnel. Old quarters that were hardly fit to be occupied by human beings are giving way to modern and comfortable buildings, although there is still a long way to go."

As a result of his trip, which was made by air and which covered more than 4,000 miles, Mr. Davison plans to have all army pilots participate in a nation-wide drive to urge localities to mark the roofs of buildings so that they may be identified from the air.

Movies on Train for Paris Subway Patrons

Paris.—Paris subway patrons can now enjoy movies as they ride.

One subway company is installing magic lanterns on all its cars to project little news and fashion features and advertising on the whitewashed walls of its tunnels.

One train is already equipped with the new "movie" apparatus. Four lanterns, two on each side, attached to the ceiling and hidden by maps of the city underground lines, are used in each car. After each station, as soon as the train has attained a certain speed, the lanterns function automatically, projecting the pictures on a surface about six feet square.

The entire program is given between four and five stations. From time to time is flashed the warning: "Watch your step—don't miss your station."

Lost Appetite

Mr. M. F. Fink, of Harrisburg, N. C., says: "It must have been fully twenty years ago that I began taking Black-Draught regularly.

"I was in town one day, and while talking to a friend I stooped over to pick up something. When I straightened up I felt dizzy. I spoke to him about this and how I had not felt like eating.

"My friend told me to take some Black-Draught. I knew my mother had used it, and so I bought a package. When I got home, I took a good, big dose, and the next night, another. In a few days I felt much better.

"A good many times I have had this dizziness and a bad taste in my mouth, or headaches, and then I take Black-Draught and get better. I do not have to take it very often. We buy from five to seven packages a year."Try it! G-127

"BABY DOE" TABOR LOSES LONG FIGHT

Widow of Former Senator Now in Poverty.

Leadville, Colo.—An auctioneer's hammer has sealed the last source of income from the silver mines of the late United States Senator H. A. W. Tabor, leaving the widow of the pioneer western mine magnate in poverty.

Execution of a foreclosure order here on the Matchless mine climaxed the fight of Mrs. Elizabeth Tabor to secure a part of the huge fortune her husband controlled.

Since the slump in silver prices shortly before the death of Senator Tabor twenty-five years ago, his widow has attempted to curb the outward flow of funds derived from the Tabor chain of mines. In her final effort she returned to the Matchless property, which produced $10,000,000 worth before production costs became prohibitive.

On five previous occasions Mrs. Tabor succeeded in obtaining funds to satisfy creditors, but lately was unable to meet the demand for ready cash. As the sheriff announced the mine would be sold to the highest bidder and turned the sale over to the auctioneer, only a few persons assembled. There were two bidders. Gradually the price climbed from $8,000 to $14,000, for which amount the Tamarac Mining company obtained the property.

Coming to Colorado in 1880, Tabor soon met success in his mining ventures. The Tabors were married during the administration of President Garfield, who was a guest at the wedding. Tabor immediately began to shower attentions on his wife, known to many people as "Baby Doe," and considered one of the most beautiful women in the West. Tabor built a $1,000,000 theater for her. Two daughters were born and one was named "Silver Dollar."

In the late nineties a series of investments proved bad. A slump in silver prices followed and the senator's health broke, and he died in 1903. The widow and daughter disappeared and for several years their whereabouts were unknown.

Finally Mrs. Tabor was found, living in an old shack on the Matchless mine. With the gift of an old prospector, once befriended by her husband, she was endeavoring to work the mine.

Salvador Sea Monster Believed Killer Whale

Washington.—The sea monster recently reported as having been discovered on a beach in San Salvador was probably a large porpoise or a killer whale, and no ichthyosaur as Central American newspaper accounts would have it. Such is the opinion of Dr. J. W. Gidley, paleontologist of the Smithsonian Institution.

There is a superficial resemblance between some of the smaller modern whale-like mammals and the ancient ichthyosaurs, so that it would not be remarkable if a native Sunter, who may never have had a closeup view of a porpoise or a killer whale, should mistake the partially destroyed remains of one of the latter for a survivor of a race of extinct reptiles.

Plaintiffs and Defendants in the above suit.

You are hereby notified that I have fixed upon Thursday the 16th day of August, 1928, at 10 a. m., as the time, and my office at Appomattox C. H., Virginia, as the place for taking the several accounts in the above styled suit, ordered by decree therein of the June term, 1928, to-wit:

1st-All of the estate, real and personal, of which Sarah F. Baldwin died, seized and possessed.

2nd- What liens, if any, exist against the real estate of Sarah F. Baldwin,

3rd— Whether the real estate belonging to the estate of Sarah F. Baldwin, deceased, could be divided in kind between her heirs at law, or whether it shall be sold and the proceeds distributed among the heirs at law.

4th- What are the distributive share or shares of each of the heirs at law of Sarah F. Baldwin, deceased, and who they are,

5th- What would be a fair compensation to be allowed to Counsel for the Complainants out of proceeds of the sale of the land belonging to the estate of Sarah F. Baldwin, deceased, or to be paid to him by the parties to this suit if this real estate be divided in kind,

6th- Any other matters especially deemed pertinent by himself or which may be required by any person interested to be so stated.

Given under my hand the date above.
